## angle seat valve VZXF-L-M22C-M-A-G12-120-H3B1-50-16 Part number: 1002500

Pneumatically actuated angle seat valve in red brass. Over seat version, safety position closed, G thread, nominal width 1/2".

## **Data sheet**

| Feature                                 | Value  |
|---|--|
| Design structure                        | Poppet valve with piston actuator                        |
| Type of actuation                       | pneumatic  |
| Sealing principle                       | soft   |
| Assembly position                       | Any  |
| Mounting type                           | Line installation  |
| Line connection                         | G½ threaded collar to DIN ISO 228                        |
| Nominal size                            | 12 mm  |
| Valve function                          | 2/2 closed, monostable                                   |
| Flow direction                          | non reversible   |
| Pressure of medium                      | 0 1.6 MPa  |
| Medium pressure                         | 0 16 bar   |
| Nominal pressure of process valve       | 16   |
| Exhaust-air function                    | not throttleable   |
| Type of reset                           | mechanical spring  |
| Type of piloting                        | With external control                                    |
| Pneumatic connection                    | Female thread G1/8                                       |
| Operating pressure MPa                  | 0.6 1 MPa  |
| Operating pressure                      | 6 10 bar   |
|   | 87 145 psi   |
| Medium                                  | Vapour   |
|   | Inert gases  |
|   | Filtered compressed air, degree of filtration 200 μm     |
| Flow direction                          | Above valve seat, for gaseous media                      |
| Operating medium                        | Compressed air in accordance with ISO8573-1:2010 [7:4:4] |
| Max. viscosity                          | 600 mm2/s  |
| Medium temperature                      | -10 80 °C  |
| Ambient temperature                     | -10 60 °C  |
| Flow rate Kv                            | 3.5 m3/h   |
| Materials note                          | Conforms to RoHS   |
| PWIS conformity                         | VDMA24364 zone III                                       |
| Material process valve housing          | Gunmetal (red brass)                                     |
| Material number, process valve housing  | CC499K   |
| Material spindle seal                   | NBR  |
| Material seat seal                      | PTFE   |
| Product weight                          | 1,200 g  |
| Corrosion resistance classification CRC | 1 - Low corrosion stress                                 |
| Material drive housing                  | Brass  |
