

Engineering Change Notification

Ball valves QH-QS-...

Engineering Change Notification

Project No.
287912

Project Title
Wegfall Metallhülse
Kugelhahn QH-QS

Date
August 22nd, 2024

Reason of change

Originally the metal cover of this trade-good valve was applied to prevent the metal part coming off the resin body. In the past, the internal structure was reviewed, and the improvement was confirmed to have eliminated the problem. This time, supplier conducted an additional evaluation and confirmed that there was no impact on product performance. Therefore, supplier decided to remove the metal cover. No special change control is planned. It will be running changes.

Technical changes

None.

Previous Version		Future Version	
	Before (current)	After	
QH-QS-6			
QH-QS-6-1/8			

Known technical implications

- **Function**
No changes in function.
- **Environment**
Currently no known implications.
- **Interfacing**
For pneumatic tubes/connectors.

Affected products

Part No	Type
153483	QH-QS-4
153484	QH-QS-6
153485	QHS-QS-6
153486	QH-QS-4-1/8
153487	QH-QS-6-1/8

ECN No.
287912

Project Title
Wegfall Metallhülse
Kugelhahn QH-QS

Date
August 22nd, 2024

Estimated transition date

No special change control is planned. It will be running changes.
Expected change date: This will depend on the timing of FESTO’s approval process.

Release

Esslingen – Germany, August 22nd, 2024
