Datasheet product reliability

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone is responsible for determining whether a product is suitable for a particular application.

特性	值
Service-life value B_{10} ¹⁾	20 Mio cycles
Vibration resistance	Transport application test with severity level 2 in accordance with FN942017-4 and EN 60068-2-6

1) The ascertainment of characteristic service life values is based on the ISO 19973 "Pneumatic fluid power - Assessment of component reliability by testing".
