

Interfaccia elettrica CPV10-GE-PT-8

Codice prodotto: 1565761

FESTO

 [General operating condition](#)

Datasheet product reliability

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone is responsible for determining whether a product is suitable for a particular application.

Caratteristica	Valore
Mean time to failure (MTTF) ¹⁾	108,5 Year
Diagnosis	Undervoltage, load power

- 1) The ascertainment of the MTTF value is based on the IEC 61709 "Electric components - Reliability - Reference conditions for failure rates and stress models for conversion" respectively on the SN 29500.
