

**EX-certified
and
inexpensive**

**You need a Namur valve for a range of applications.
You want to combine explosion protection with a good price.
We provide you with a future-oriented valve solution.**

**→ WE ARE THE ENGINEERS
OF PRODUCTIVITY.**

Certified for all common explosion protection standards, easily changeable seal for 3/2-way or 5/2-way, numerous Ex solenoid systems, sturdy and with high flow rates, extended temperature range -20 ... +60 °C: VSNC. And an excellent price/performance ratio. That is what Namur valves should be!
