

Festo Training and Consulting

From industry – for industry

FESTO

Factory tour at Scharnhausen Technology Plant

The Scharnhausen Technology Plant is at the forefront of automation for the future and the leading Festo factory for the production of valves, valve terminals and electronics. With this factory, Festo meets current industrial challenges and global competition. Many of the aspects of Industry 4.0 are already a reality in the Technology Plant. Festo looks at changes in production from different perspectives. Besides technology, the interaction between people and technology as well as training and employee qualification play an important role in this context.
