

Engineering Change Notification

DGC-KF

Change of slide module

Engineering Change Notification

Project No
241 782

Reason of change

The reason of change project 241782 is the harmonization of the slide module with EGC and DGC-HD which has a positive effect on the supply chain.

Project Title
DGC-KF – Change of slide module

Date
March 7th, 2022

Technical changes

Previous Version	Future Version
<ul style="list-style-type: none"> ➤ steel plate screwed on carriage by guiding supplier in different options (GK, GP, C, ..) ➤ Plate pinned with a connector to piston 	<ul style="list-style-type: none"> ➤ Assembling of slide unit in different options and manufacturing of slide at Festo ➤ One-piece design for the slide due to an extruded Aluminum profile, piston connector is integrated ➤ Screw threads for customer interface with helicoils (steel thread inserts like EGC)
<p>Plastic cover element + Connector + Connecting pin + Slide plate</p>	<p>Slide with connector and cover in one piece design</p>

Known technical implications

- **Function**
no known effect on the function, all variants and features still available
- **Environment**
no known effect on the environment
- **Interfacing**
no known effect on the costumer interfaces, same dimensions
- **Appearance**
visibly difference due to one piece design and material change

Project Title
DGC-KF – Change of slide module

Date
March 7th, 2022

Estimated transition date

According to our current project schedule, the change will be productive approximately

4th Quarter 2022 -> DGC(I)-KF size 25, 32 and 40

1st Quarter 2023 -> DGC(I)-KF size 18, 50 and 63

Page
2 / 2

Please note that the transition date can vary due to the quantities in stock of the old variants in the different plants. For a period of around 3 years the old slide module will be still available as a spare part

Release

Esslingen – Germany, March 7th, 2022
