## Datasheet product reliability

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone is responsible for determining whether a product is suitable for a particular application.

Functie	Waarde
Certificate issuing authority	IECEX ZLM 12.0007 X ZELM 12 ATEX 0500 X DNV 15.0192 X
Mean time to failure (MTTF) <sup>1)</sup>	78,23 Year
Diagnosis	Limit value violation per channel Parameterisation error Open circuit per channel Short-circuit per channel
CE mark (see declaration of conformity)	To EU ATEX Directive

1) The ascertainment of the MTTF value is generally based on the IEC 61709 "Electric components - Reliability - Reference conditions for failure rates and stress models for conversion" respectively on the SN 29500.
