

# Unidad de filtro y regulador PCRP-44-G12-12-E-R1-M-T19

Número de artículo: 8120899

FESTO

 [General operating condition](#)

## Datasheet product reliability

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone is responsible for determining whether a product is suitable for a particular application.

Característica	Valor
Common Cause Failure (CCF) measures <sup>1)</sup>	Comply with ambient temperature and temperature of medium Observe compressed air quality Comply with maximum vibration and shock loads Safely keep operating pressure within the limits of the technical specifications
Service-life value B <sub>10</sub> <sup>2)</sup>	20 Mio cycles

- 1) CCF measures have to be verified for the precise application. Therefore, the list with measures is not meant to be exhaustive.
- 2) The ascertainment of characteristic service life values is based on the ISO 19973 "Pneumatic fluid power - Assessment of component reliability by testing".
