

Passionate employees and trainees wanted

Festo is always coming up with striking new innovations in the field of automation technology. Therefore, we are looking for passionate and highly motivated employees - especially software, mechanical and automation engineers - both experienced and fresh university graduates. We are also looking for trainees and interns for all departments.

What we do expect from you? Think outside the box. Try new things. Bring your own idea. In short: Face new challenges. In the passionate working world of Festo.

Face new challenges.
In the passionate world of automation.

Kick-start your career

We want to fly high – together with you. Regardless of whether you would like to get to know the company as an intern, or you would like to start working here as a professional: Kick-start your career in a dynamic environment with state-of-the-art facilities, responsive colleagues, professional atmosphere and corporate culture with traditions and a great future.

We offer the following opportunities for internship and work in our company:

- Full-time employment
- Part-time employment
- Shift work in production departments
- Summer Academy, summer internship
- Student internships 3 to 12 months
- Drafting Graduation Thesis

Your solid base for lift-off

FESTO

Working at Festo Global Production Center Bulgaria

Lift-off.
Here is all you need.

Keep the world moving: Welcome to Festo

Festo is a worldwide leader in automation technology headquartered in Germany. At Festo, technology enthusiasts meet inventive spirits and team players meet those who spark ideas - in the production as well as in all other divisions. The result is 100 innovations and new products each year.

Behind this, our driving force is freedom. We offer a high degree of flexibility to our employees and excellent prospects for turning your ideas into reality – because only when ideas know no limits they can conquer the world. Welcome to working at Festo.

About Festo in Bulgaria

- Festo Production EOOD is an affiliate of the independent global enterprise Festo AG & Co.
- We are the leading factory for sensors and connection cables: currently more than 13 million products are produced on an annual basis.
- Festo's origin story in Bulgaria started back in 1986, and the manufacturing operations themselves started in 1990. In 2000, Festo Production EOOD was established as an independent company.
- In 2002, Festo complex was opened in Sofia, with total surface area exceeding 10 000 square meters. In 2015, the complex has doubled its production and tripled the logistics premises.
- Our production, engineering and administrative departments in Sofia and in Smolyan employ more than 800 collaborators.
- Festo Production has its own testing laboratory and product development unit, employing highly qualified engineers.
- We are actively engaged in common projects with professional secondary schools and technical schools of higher education, pioneering dual education in Bulgaria and welcoming more than 100 interns per year.

Our identity as employer

As an employer, we do everything in our power to ensure that visionary ideas are transformed into reality. Inventiveness is our motto – and our DNA. With this we aspire to be a technology and market leader. We have been designing creative and effective solutions for our customers since 1925. We support our employees in developing solutions and offer creative freedom and a wide range of development opportunities. In exchange for performance and dedication, we offer our employees a stable foundation. We are an independent global company. Our long-standing success has provided us with a secure capital base. This means stability and independence, as well as the reassuring feeling that comes from continually investing in our common future. And of course, we focus on optimal work safety. All this gives our employees a real sense of security. This combination makes our employees proud and self-confident and Festo a truly fascinating employer. We offer the freedom to lift-off and the long-term security to arrive. We are your solid base for lift-off.

Your solid base for lift-off

Welcome to the production of Festo

Production is fascinating and essential part of the business. It is the place, where ideas and innovations are brought to life. And because the working environment is important to the well-being and motivation of employees, we value safety of our production workers. We offer safe long-term and secure jobs in a very modern, clean and safe environment. With us, you will find a pleasant working atmosphere, characterized by respect, team spirit and attractive opportunities for development. Health and safety measures are a particularly high priority at all times at Festo.

We will continue to grow in the future. Therefore, we are looking for motivated production workers skilled in electronics and machine operators. Bring ideas to life within a great team. Welcome to Festo Global Production Center in Bulgaria.

**Safe. Clean. Respectful.
For those who bring ideas to life.**
