

Thinking of an apprenticeship?

FESTO

Kicking off your career with an apprenticeship is a great way to get a head start in the field you want to work in.

Consider the benefits:

- Combines practical training in a job with study
- You work alongside experienced staff and get first-hand knowledge of how the industry works
- Gain job-specific skills
- Get the qualifications you need in your field (study time usually one day a week)
- Put the skills you learn into practice at the same time
- Learn whilst earning a wage and getting holiday pay
- You may still be able to attend university

Apprenticeships can take up to four years to complete depending on their level.

If you're interested in an apprenticeship with Festo please contact sue.hersey@festo.com
