Magswitch PLAY Series

Heavy Weight Application Tools

Magswitch PLAY series brings the power of multiple magnets together with a single point of actuation. Use these tools when handling long pipes or beams. Ideal for heavy weight applications. These tools have customizable pole elements which can be applied to improve handling in any application.

High Heat Series
Our PLAY Series is available in high temperature versions. They are capable of handling up to 742° Fahrenheit (350° Celsius) and can be used in Hot Stamping applications.

Features
- Customizable Contact Surface
- Deep field technology
- Ideal for handling long components
- Saves energy
- Ideal for heavy weight applications
- Fail-safe operation

Applications
Assembly, Body-In-White, Door Hemming, I Beam Handling, Pick & Place, Press Line, Hot Stamping
