Datasheet product reliability

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone is responsible for determining whether a product is suitable for a particular application.

Feature	Value
Relevant basic safety principles[1)]	Yes
Relevant well-tried safety principles[2)]	Yes
Fault exclusion	Spontaneous opening of the manual exhaust function in pressurised and depressurised condition. Bursting of the valve housing: externally directed failure of the material structure with a sudden release of the medium and associated pressure drop (according to ISO 5598, 3.2.85).

1) The product-relevant basic safety principles are fulfilled according to the ISO 13849-2.

2) The product-relevant well-tried safety principles are fulfilled according to the ISO 13849-2.
