Datasheet product reliability

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone is responsible for determining whether a product is suitable for a particular application.

Feature	Value
Service-life value B_{10} ¹⁾	80 Mio cycles
Safety instructions	Safety position VEAA/VEAB: if the electrical power supply fails, the output pressure is maintained in unregulated form and may rise or fall – valve closed.
CE mark (see declaration of conformity)	To EU EMC Directive To EU RoHS Directive

- 1) The ascertainment of characteristic service life values is based on the ISO 19973 "Pneumatic fluid power - Assessment of component reliability by testing".
